

CIA Project participates in the European Erasmus Days with an interactive online event

The CIA project consortium has organized one online event to celebrate the European Erasmus Days on 15, 16 and 17 October. The Erasmus Days, a European initiative, consisted of three days of celebrating the Erasmus + Programme in Europe and beyond. They were planned as an opportunity to organize an event, share your Erasmus experience or spread the word about your project.

This online event took place last **Friday 16th October** through a live video on the Facebook profile of the [CIA project](#). Under the title, Discover more about Local Intergenerational Civic Councils, this event gathered together online a lot of followers of the project through Facebook live. After a brief presentation of the project, its website and its objectives, an interactive game through the Facebook live video platform followed and made the participants learn more about the project while playing and answering questions about it in a dynamic and fun way. This event is available on the [CIA Facebook](#) account and in the official website of the [European Erasmus Days 2020](#), as well as all the initiatives scheduled for this year's online edition.
